Dear Victor Community,

We have been informed that an employee has had direct exposure to a family member who tested positive for COVID-19. This employee notified staff of the situation and as a precaution to the safety of the community and staff, City Hall will be closed to the public until further notice for cleaning. City business will be conducted via emails and online.

Direct exposure is defined as being within six feet of an individual who tests positive for COVID-19, for at least 15 minutes, without wearing a mask.

We continue to follow guidance from the Teller County Department of Health, CDPHE, and the CDC.

We ask that you respect the privacy of this employee. The employee will self-quarantine for 14 days while pending results of testing. At the present, this employee does not show any signs or symptoms relating to COVID-19.

The city of Victor continues to follow protocol including temperature screening, social distancing, frequent hand washing, and sanitation. We ask everyone in our community to assist us in our effort to slow virus transmission by.

- Engage in social distancing. Remain six feet from others when possible.
- Wear a face mask.
- Avoid close contact with people who are sick.
- Wash hands often with soap and water for at least 20 seconds. If soap and water is not available, use an alcohol-based sanitizer.
- Avoid touching your face, eyes, nose and mouth with unwashed hands.
- Get a flu vaccine.
- Watch for cough, troubled breathing or other signs of a respiratory infection.
- Monitor temperature for a fever above 100.4 degrees F.

As always, the health and safety of our community and staff continues to be our top priority.

Thank you for your continued support.

Sincerely,
Richard Mann
City Administrator
